215 Calle Federico Costa, San Juan, Puerto Rico 00918-1322

January 23, 2018

TO WHOM IT MAY CONCERN:

Vaqueria Tres Monjitas was founded in 1918 in Puerto Rico and since then it has become a fundamental part of the country's dairy industry. Tres Monjitas offers a wide range of products which cater to the needs of our Milk, Juice, and Beverages consumers with an island wide distribution on refrigerated and dry channels.

Throughout December 2017, London Consulting Group successfully accompanied our executive team in the development of a Strategic Analysis, and they also became our facilitator as we designed our Strategic Plan for 2018-2023. This plan encompassed both, fundamental and tactical aspects, including Vision and Mission Statements, Strategic Objectives, Strategic Pathways, and detailed Operational Plans for every department within each of the defined lines of action.

Furthermore, London's personnel provided us with counseling for assessing and aligning our business model in order to maximize profits and ensure growth, in line with our new strategic plan.

By the aforementioned, we highly recommend LCG as a company which possesses a proven and successful methodology and competent and experienced personnel, who has fulfilled all of our expectations.

Sincerely,

Orlando González Núñez  
General Manager
